Guitarduo Santorsa~Pereyra

Ruben Mattia Santorsa & Adrian Pereyra

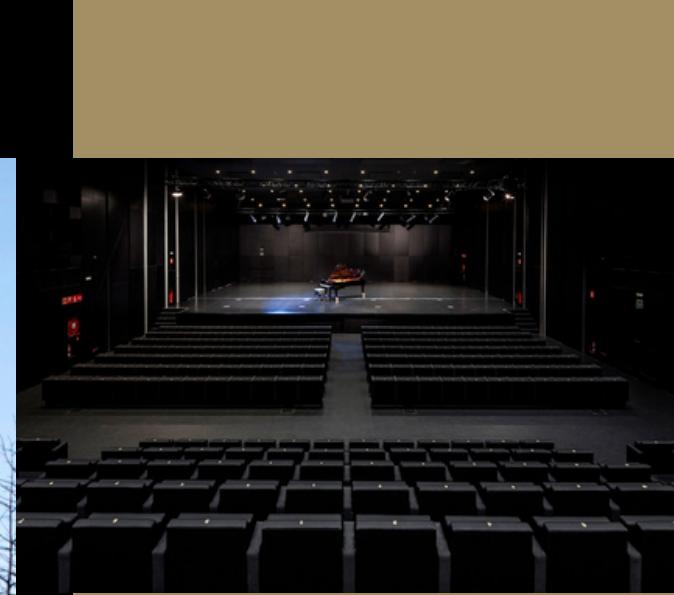

The guitarduo santorsa~pereyra, founded in Munich in 2020, sees itself as a "band for current music". Concerts took the duo through Germany, Italy, Austria and Switzerland. The formation, consisting of electronic and acoustic instruments, is characterized by a particularly characteristic, innovative sound that clearly stands out from the sound of conventional chamber music.

The focus is on collaboration with composers of the youngest generation, who are characterized by a broad spectrum in their works. Both musicians are proven specialists in the field of contemporary music and are also very familiar with electronic music and improvisation.

Instead of the usual separation of production and interpretation, their work focuses on an intensive exchange between the artists and the composers. The guitarduo santorsa~pereyra was awarded the music scholarship from the state capital of Munich in 2020 for the project so near ~ so far, and they got support from Musikfonds Germany and Ernst von Siemens Kunststiftung.
